

# Heart Calcium Scoring

**The best way to provide heart care is to prevent heart disease or detect it in its earliest stages, when so much can be done to help.** That's why Bellin is offering Heart Calcium Scoring, a powerful tool that can detect the presence of plaque before you have any symptoms of heart disease.

- 15-minute appointments scheduled daily.
- Painless, safe, and noninvasive – it only takes minutes.
- Includes: calcium score and reading of surrounding lung tissue by a board certified cardiologist and radiologist.
- If you're a man over 30 or a woman over 40, call to find out if this screening is right for you.
- Retesting may be appropriate every five years. Speak with your primary care provider to determine if retesting is appropriate for you.

Present this coupon at time of appointment

**FREE Heart Calcium Scoring**  
(\$75 Value)
