## Dog Park

Our Dog Park, located in the West Side Industrial Park at 1400 Biotech Way, has been very popular since its opening in August of 2011. Since its inception we have added water for humans and pets, new trails, benches, black top parking lot, a concrete walk into the large dog area, exercise structures and other small upgrades to enhance the experience. We also built a new open-air shelter for users to enjoy! We welcome you to stop out and enjoy our beautiful fenced in facility.

We have been very fortunate in the past to have the support of our volunteer group, the De Pere Dog Park Association, and numerous Eagle Scouts. These scout projects and all the hard work and financial support from the group, along with all the donors, made the park a reality. To continue to build and add onto our park, though, we still need continued support from the community. The dog park has many options for providing financial support, ranging from simple donations at the “donation box” to naming rights for larger donations. All the donations go directly into an isolated fund that is to be used for future improvements. Please contact the Parks, Recreation and Forestry Department with any questions you have about financially supporting the future of the De Pere Dog Park. We can be reached at 920-339-4065 or at [dpparks@deperewi.gov](mailto:dpparks@deperewi.gov).

## Memorial Bench and Tree Program

The City of De Pere has a program that lets you honor a special person or persons through a bench and/or the living gift of a tree. You can request to “donate” a bench, a tree or trees that would be installed or planted in the park of your choice as a memorial. For more details of this program, please call the Park Department at 920-339-4065.

### Jerry Hasenberg Jr. Memorial Fund Launched

On April 1, 2021 the City lost a valued employee, Jerry Hasenberg Jr., in a tragic work place accident. To honor Jerry as a valued employee, co-worker, arborist, and friend, the City has launched a memorial fund in honor of Jerry and his life’s work as an arborist. Residents, community members, and friends may contribute to the Jerry Hasenberg Jr. Memorial Tree Fund, which will go directly to planting trees throughout the city’s park system and green spaces. Jerry was often quoted as saying “Trees are the answer” and wanted nothing more than the City to be filled with trees. All contributions to the Memorial Fund will go directly toward planting trees within the City of De Pere to honor Jerry’s life work and mission. Contributions can be sent to the City of De Pere Parks Department, 925 S. Sixth St., De Pere, WI 54115.

## Parkway Tree Planting Program

Our spring tree planting orders were taken until March 21st. Our fall orders will be taken from mid/late August through September 19th and the tree species and varieties will be determined at that time. Further information can be obtained by calling the Parks, Recreation & Forestry Department at 920-339-4065 or it can be accessed on the City’s website at [www.deperewi.gov](http://www.deperewi.gov). During the above dates, the form for ordering trees will be available on that website. *“It should be noted that De Pere has an ordinance limiting homeowner plantings in the terrace or on any City right-of-way and requires you to fill out a ROW Planting Permit. If you have a question or concern, please contact the City Forester for clarification.”*

## Parkway Tree Pruning or Removal

The De Pere Forestry Department will perform **all** pruning and removal of parkway trees. Parkway trees are all trees that fall within the City terrace/right-of-way (between the curb and the back of the sidewalk or where it would be located). Pruning will take place either at the time of planting (typically only broken or damaged limbs will be removed), upon the request of a property owner, on a periodic pruning cycle, or as the need is determined by the City (i.e. branches are a hazard). Though the trees may look different, please be assured that our forestry crews are trained and have an action plan as they approach each tree. Removal requests are evaluated by the City Forester. Trees also are periodically evaluated by City staff and may be targeted for removal. Homeowners are notified and advised of their options.

The City of De Pere will not “**top**” trees on any City property, and it is likewise not advised that any other individual or company partake in such a practice. Topping a tree opens the tree to insect and disease attacks, causes severe internal decay and structural problems, and reduces the tree’s ability to manufacture stored root reserves. This practice is extremely detrimental to all trees and does not follow the natural growth habits of the plants.

Please consult the City Forester about any pruning or removal questions for City owned trees or about your own trees.

## Emerald Ash Borer

In July 2016 we identified our first case of Emerald Ash Borer on the NE side of De Pere. **Since then, EAB spread significantly on both the E & W sides of our city – both publicly and privately.** Currently, most of the ash trees that were located within the terrace/right-of-way have been removed. City crews have also removed many park/trail trees and will continue to remove those trees that pose an immediate or potential future hazard in our parks and other areas of the city. Thousands more ash can be found on private property. It behooves everyone to know what type of trees you have and to evaluate them closely.

Now that EAB has become entrenched in our area, what does this mean for you? It means that if you want any real chance of saving your ash trees, you will need to begin treatment of them sooner than later (in most cases it is likely too late already). There are numerous options available to you – you can treat it yourself with various products (if your tree is less than about 47 inches in circumference [i.e., 15 inches in diameter at breast height (DBH)]) or you can have a professional treat your trees (for trees typically over that size). Currently, with such a heavy infestation in the area, having a professional treat your trees is likely the best option. If you do ultimately choose to do nothing, unfortunately the ash in your yard is likely to succumb to EAB. The choice of how many resources and time you wish to spend on your ash, however, is yours. For many years I have also been recommending to residents that they start to replant other trees in their yard before the insect kills their ash trees. Fill in areas of ash with other, diversified species of trees so that if you choose to not treat the trees you have, these newly planted trees will likely get a good foothold and be ready to push better growth once the ash are removed. \*\*It should be noted that as an ash tree dies from EAB, it becomes more brittle and prone to breakage than an ash that dies from more normal conditions. Therefore, we recommend removing your ash as soon as it becomes obvious it is infested and dying from the insect and your treatment options have been exhausted.

EAB is a small, brilliant green beetle about the same size as our native Bronze Birch Borer (which attacks and kills white birch). These adults lay eggs on the bark of ash trees. Upon hatching, the tiny larvae bore under the bark and begin feeding in the cambial (the transport system) layer of the tree. These larvae feed in winding serpentine patterns under the bark, essentially girdling the trees as they go. Upon maturing, the adult exits the bark forming a distinctive “D” shaped exit hole. Signs to look for include bark cracking, crown dieback, **heavy woodpecker activity** and sprouts on the trunk of the tree. It usually takes 2 – 5 years for the tree to fully show damage from EAB.

You can learn more about EAB at one of the many websites devoted to this devastating insect. Wisconsin’s website is a very good reference for all - <http://emeraldashborer.wi.gov/>; another good one is - [www.emeraldashborer.info](http://www.emeraldashborer.info). If you have any questions or concerns about your city ash trees or other trees in your yard, please contact the City Forester at 920-339-4065.

## Compost Facility Hours

The compost facility is open seven days a week from dawn to dusk. There are designated bins for permitted items at the site. No plastic bags are allowed to be left with your material. The facility is a service provided for City of De Pere and Town of Ledgeview residents only.

## Directions to Compost Site

Take Broadway (Hwy. PP) south; go under the overpass and past Legends Bar on Hwy. PP. Continue south on Hwy. PP, past Valley Cabinets. Turn right onto Rockland Rd. just south of De Pere Veterinary Service. Go past Mommaerts Auto Salvage; compost site is on the same side of the road as Mommaerts.

## Dutch Elm Disease/Oak Wilt

Dutch Elm Disease and Oak Wilt continue to be killers of our American Elm and many varieties of Oak. DED never went away, and Oak Wilt is only a short distance away from De Pere. **As a landowner, you can help prevent or slow down the spread of these diseases by not pruning either species from April 1st to September 1st**. If your tree is dying or dies from one of these diseases, the City of De Pere has an ordinance that declares them a nuisance and requires them to be removed in a timely fashion or an abatement procedure could be started. Please help us control these fatal diseases with timing and sanitation.

## Spongy Moths

Spongy moths, formally known as the Gypsy Moths, can be a destructive pest to many of our trees and shrubs in De Pere. Oak trees, unfortunately, are a favorite of the Spongy Moth and therefore many of our control efforts continue to focus on areas of high populations of these magnificent trees. The City of De Pere Forestry Department continues to monitor and help control Spongy Moth in De Pere. Egg mass oiling, aerial spraying, placing burlap ‘skirts’ on trees, and insect destruction on City owned trees are just some of the ways we have done so. You can also help to monitor and control them by checking your own trees, shrubs, woodpiles, and outdoor furniture for the presence of eggs, caterpillars, and/or pupae. When they are found, please destroy them by cutting, crushing, scraping, oiling or treating them. To learn how to control each stage of the insect please consult your Forester, a tree care professional or one of the many websites (especially [www.spongymoth.wi.gov](http://www.spongymoth.wi.gov)) dedicated to Spongy Moths.

## Goose Patrol Program

The City has a program that allows residents to help control geese in specific parks. This program allows you to take your dog into one of these parks to harass the geese. The participant will need a free permit and a vest for their dog to participate. Please contact the Parks, Recreation and Forestry Department at 920-339-4065 for further details.

## Arboricultural Specifications Manual

Our arboricultural specifications manual helps the City of De Pere to manage and maintain all trees located upon City grounds. It can also serve as a guide to homeowners and professionals alike. For a copy of this manual, you can either access it in the Forestry section of the City of De Pere website or you can contact the City Forester.

**For any questions, concerns, or comments on these or any other forestry related topics, please contact the City Forester at 920-339-4065 or [dpforestry@deperewi.gov](mailto:dpforestry@deperewi.gov).**

## Brush Collection

Brush is scheduled to be collected three times each year. Brush should be placed out to the curb before **6:30 AM** on **Monday** of brush pick-up week.

- 1st Collection: **May 12, 2025**
- 2nd Collection: **July 14, 2025**
- 3rd Collection: **October 13, 2025**

### Will my brush be picked up on my garbage collection day?

Brush collection will probably not occur on your garbage collection day. Staff will only collect from each street one time during the scheduled collection so it is important to have it out by the start of collection. If brush is placed at the curb after Monday it will be the property owner's responsibility to dispose of it properly.

### What should - and shouldn't - be placed at the curb during brush collection?

Brush consists of brush and tree trimmings only and these are the only things that will be collected. **Do not** put grass clippings, lawn rakings, garden waste or leaves with your brush.

### What should I do if the branches came down in a storm?

Please call our office at (920) 339-4060 to see if we will be offering a special collection due to the storm.

### What should I do if the branches fell off my street tree?

Please call our office at (920) 339-4060 or the office of the Forestry Department at (920) 339-4065.

## De Pere Drop-Off Site

The City of De Pere offers a drop-off site for residents wishing to dispose of large items, appliances, scrap metal and electronics. Here's some helpful information on the items we collect at this facility, as well as your options for disposing of items we do not collect.

### Location and hours:

New hours this year! The site opens Wednesday, April 2 and remains open through the end of November on Wednesdays from 3 PM to 6 PM, Fridays from 3 PM to 6 PM and Saturdays from 8 AM to 2 PM. The site is located at 925 S. Sixth St., De Pere.

### Who can use this drop-off site?

The site is available for residents residing within the corporate limits of the City of De Pere. Having a De Pere mailing address does not necessarily make you eligible to use this site. You must show a valid ID upon entering the facility. Please call the office if you have questions.

### Is there a fee to use the site?

The site is free to use for City of De Pere residents with a few exceptions for select electronics and freon appliances.

### It's my first time. What's the process like?

As you enter the gate you will notice signs indicating to "stay right", "address verification ahead", and then "stop". To ensure only residents within the corporate City of De Pere limits are using the facility, you will be asked to show ID. The attendant will ask what you are dropping off and may inspect at your vehicle. The attendant will direct you where to drop off the items. If dropping off electronics in the Cyber Green recycling bin, please place cash or check in the box for items that have a fee.

### What items do you accept? What items do I need to take elsewhere?

We accept a wide range of items. Please review the general guidance on our website at [www.deperewi.gov/rubbishsite](http://www.deperewi.gov/rubbishsite). If you have questions on items not listed or need clarification, please call 920-339-4060.

## Garbage & Recycling

As a reminder, all garbage and recycling carts **MUST** be to the curb for collection by 6:30 AM on day of collection per city ordinance. Garbage/Recycling route collection times can change without notice. Also, please keep carts out of the roadway, away from mailboxes/trees/cars etc. and 4 feet apart for collection.

## De Pere Report It App

Unsure who to contact for noise, garbage, pet waste, sidewalk, or lawn issues? How about light outages, park vandalism, traffic, or street problems?

Our online "Report It" portal gives citizens a convenient and quick way to reach out to City staff about these areas of concern and so much more. Better yet, the City of De Pere's "Report It" feature takes the guessing out of the equation. Simply select a category and fill out the form. It will be directed automatically to City staff that can best address your issue.

Available on iOS & Android. Download today! Also available on desktop. Use online at: [www.deperewi.gov/reportit](http://www.deperewi.gov/reportit)

## “Flushable” Reminder

**REMINDER:** “Flushable” wipes should go in the garbage, not in toilets. “Unflushable” items, wipes as the main culprit, have been identified in your neighborhood’s sanitary sewer system. These wipes (even if labeled “flushable”) can cause your sanitary sewer to backup, cost you for repairs to your home and sewer system, and endanger the safety of our staff and public health.

Please remember to **ONLY** flush the “3Ps” (Poop, Pee & Toilet Paper). Thank you for your help!

## Hydrant Flushing

The Fall City-wide hydrant flushing program is scheduled for four (4) weeks in September beginning **Tuesday, Sept. 2 thru Friday, Oct. 3**. Water Department staff will begin the flushing program on the east side of De Pere and will work their way through the entire City ending on the west side.

The hydrant flushing program is an important preventative maintenance practice to ensure that we continue to provide the residence of De Pere with the highest quality drinking water possible. Minerals, biofilms, deposits, and sediment may build up over time in water mains which need to be removed. This material in the long run could have a negative effect on water quality and can inhibit good system hydraulics. Flushing is the process to remove these materials. It also gives the utility a good opportunity to evaluate the working condition of each hydrant throughout the city that helps to protect the residents of our fine community.

However, during this time some residents and neighborhoods may experience a discoloration in their drinking water. The discoloration is not harmful. The water continues to be safe for drinking, cooking, and bathing, but may stain laundry. Should discoloration occur, residents are instructed to flush their cold-water lines for a short time until the water clears up. Slight drops in water pressure while staff are working in that area may also be experienced. Residents are encouraged to monitor their water during this period.

The De Pere Water Department appreciates everyone’s cooperation in keeping our community safe. Please contact the water utility at 920-339-4060 or [dpwater@deperewi.gov](mailto:dpwater@deperewi.gov) with any questions, comments, or concerns.

# Other City Services

## Welcome to AquaHawk, a web-based water use monitoring system.

AquaHawk can alert you if: your hose is left on, have a toilet or other leaks, or if you are tending toward a high-water bill. AquaHawk allows you to monitor your water use remotely, even if you are out of town because it is web based. AquaHawk will email, text or call you if you are experiencing a high water use problem. The best part is that it doesn't cost you anything extra on your water bill.

What is **AquaHawk**? It is a user friendly, customer engagement website that provides our customers with the tools and information needed to better manage their water use. It empowers customers with actionable information that allows them to conserve and manage their own water use. It also allows water utility staff to easily and quickly view and answer your water use questions, resolve issues and perform other utility management tasks. Customers that have been exposed to the AquaHawk website are expressing satisfaction with the power of this information.

You can register at: <https://deperewi.aquahawk.us>

**"Register" as a user, then "Sign In" and "Add your account information" (typed exactly as it appears on your water bill, including zeros and shortened street names).**

AquaHawk users can: track their daily... even hourly water usage; estimate and project future utility bills. Please make sure your **telephone number** and **email address** are included when you register so AquaHawk can send you automatic notifications via text message, email or voice phone call. The "Help" menu tool, in the upper right corner of the page, is a good resource to guide you, and to answer many questions about AquaHawk after you have registered. (Google Chrome, Mozilla Firefox, Microsoft Edge, Apple Safari, or Opera are AquaHawk supported internet browsers).

**After adding your account information, you will want to set user defined alert thresholds so that you are alerted if the values you set have been exceeded or are trending to exceed your specified values.**

Only users that set alert thresholds and have included a telephone number and or email address will receive automatic alert and leak notifications. Under **Advanced Thresholds** we suggest the following settings as a starting point:

- **History:** Every household is different, so it is best to review your actual past water usage graphing on AquaHawk as it is documentation of what your normal usage is. Then set your thresholds a bit higher than your normal usage so you don't get too many nuisance alerts. If your current logged history is short you can start with the following values:
- **2 person households:** we suggest starting points: 300 gallons per hour, 600 gallons per day, and 1,000 gallons per week.
- **4 or more person households:** we suggest starting points: 300 gallons per hour, 800 gallons per day, and 2,500 gallons per week.
- **Seasons:** Summer watering will increase water usage so you may need to seasonally adjust your thresholds to avoid alerts.
- **Businesses:** vary greatly so use your historical usage as a guide to determine starting values.

**NOTE: AquaHawk is not the City of De Pere's billing program and is not used to calculate your quarterly utility water bill.**

For questions about AquaHawk, please call 920-339-4060 or [dpwater@deperewi.gov](mailto:dpwater@deperewi.gov)
