## PLUMBING HOMEOWNER'S ACKNOWLEDGEMENT

Address where work is to be performed:

\_\_\_\_\_

Homeowner: \_\_\_\_\_

Daytime Phone: \_\_\_\_\_

**S.S. 145.06 (4) (a)** Plumbing work may be done by a property owner in a one-family building owned and occupied by him or her as his or her home or farm building, except where such license is required by local ordinance.

I hereby attest, affirm, acknowledge, and agree to the following:

1. The plumbing work done under the permit I seek will be done by me personally, or by a licensed plumbing contractor.
2. Subject property is a single-family residence, having and intending no renters or rental units, no nonresidential use, and is my current primary residence.
3. I am the current owner of record of subject property.
4. I am qualified by study and/or experience to do the work for which I seek a permit (see sidebar).
5. A plumbing permit is valid only for the work described in the application and the permit expires when the work is completed and approved by the building inspector.
6. I will call the Building Inspection Department to arrange required inspections.
7. If the inspector calls out corrections, it is my responsibility to call for re-inspection of work before it is concealed. No work can be closed until it is inspected and approved. If it is necessary for the building inspector to make more than one re-inspection for the same corrections, there may be an additional fee charged at the rate of \$75.00 per inspection. (Municipal Code 62-14(b)).
8. If I fail to obtain inspection and approval of work prior to concealment, the plumbing inspector may require that some or all finish material be removed so that an inspection can be made.
9. I understand that future property damage or personal injury claims my insurer may dispute resulting from my failure to follow all codes.

### PLEASE READ CAREFULLY

The plumbing inspector may not provide design advice or instruction in the plumbing trade. The plumbing inspector, upon finding that work is not being done in a competent manner, will issue a stop-work order that will remain in effect until a licensed plumber takes responsible charge.

I HAVE READ AND UNDERSTAND THE STATEMENTS GIVEN ABOVE:
