Wellness Incentive Program Monthly Activity Challenge

Name: _____

Each month will have a different challenge assigned to it (ex. January Jumping Jacks). Increase the repetitions of the designated exercise by 1 each day of the month (January 1st – 1 jumping jack, January 2nd – 2 jumping jacks, etc.) until you get to the end of the month. When the new month starts, reset at 1 repetition for the next challenge! See the following pages for examples of the exercises. Tracking on this form is OPTIONAL! If you choose to use it, simply cross off each day that you have completed the designated number of repetitions. Once you complete a full challenge, simply acknowledge that you completed the month in your Healics account by the 15th of the following month. (This form does NOT need to be submitted.)
