### Sec. 26-6

### SUMP PUMP INSTALLATION

- A. ***Installation Required: Discharge Regulated.*** The installation of sump pumps shall be required in all residential, commercial, and industrial buildings constructed after July 17, 1973. The effluent from all sump pumps installed pursuant hereto shall be discharged directly into the storm sewer where such sewer is available or can be made available.
- B. ***Permits Required: Inspection.*** Any person applying for the plumbing permit under this code shall certify to the issuing officer or department that a sump pump shall be installed within such building and shall submit plans and specifications relating to the connection of such pump to the storm sewer. The Plumbing Inspector or other officer, prior to issuing any permits, shall review and approve said plans and specifications. Any installation connection hereunder shall be performed in such manner to allow for inspection by the Plumbing Inspector.
