### ***CITY OF DE PERE ALERT***

#### **COVID-19 Guidance for De Pere Businesses**

The City of De Pere Health Department (DPHD) is committed to protecting the health and safety of De Pere's workers, workplaces, and the public during these challenging times.

Covid-19 is now considered "community spread" in our region. It is essential that businesses take measures to help PREVENT the spread. DPHD recommends the following safety measures be implemented:

- **Social Distance:** Encourage patrons and employees to stay at least 6 feet from others during operation.
- **Face Coverings:** Require both patrons and employees to wear masks inside your business at all times (except while eating or drinking).
- **Limit Capacity:** Consider limiting the capacity to 50% to allow for better social distancing and less congregating of patrons.
- **Modified Procedures:** When possible, offer outside seating to limit the numbers indoors or offer curbside take out or delivery options.
- **No Mass Gatherings:** Postpone or cancel special events that draw large crowds or gatherings.
- **Signs and Messages:** Post signage in highly visible locations that promote everyday protective measures and describe how to stop the spread.
- **Clean and Disinfect:** Clean and disinfect all common touch surfaces frequently throughout the day. Use an EPA approved disinfectant to sanitize effectively.
- **Hand Hygiene:** Place hand sanitizers with at least 60% alcohol in multiple locations to encourage hand hygiene.
- **Stay Home:** Stay home if experiencing symptoms or not feeling well.
